Job vacancy: Power Quality Engineer (Electrical Engineer)

Work with an International organization that is a leader in its field. This is a fast-track career opportunity for a new graduate or qualified electrical engineer.

Power Quality (Thailand) Co., Ltd. (PQT) has been providing Power Quality instruments and engineering services in Thailand and S.E. Asia for 27 years. We also offer an exciting opportunity to work in expanding our product lines and consulting in the rapidly expanding Smart Grid market throughout Asia.

The office located in Ramkamhaeng Soi 90, Sapansoong District – Bangkok

NEED TO EMPLOY: Power Quality Engineer (Electrical Engineer)

SALARY: THB 18,000 up (negotiable), depending on experience.

Qualifications:

- Recognized university degree in Electrical Engineering
- A recent graduate engineer 22 to 30 is preferred
- Good verbal and written skills in Thai and English - minimum English level 3 to 6 (TOIC 550)
- Outgoing personality; proactive self-starter with the ability to work independently or as part of a team
- Committed to providing a professional level of service
- Good IT skills, including Microsoft Office and other standard software applications
- Valid passport and driver's license
- Experience in electrical utilities or industry and technical skills will be an advantage

The job description

- Technical support and user training for hardware and software products
- Technical sales presentations
- Quality control testing, installations and commissioning
- Equipment repairs and software troubleshooting and upgrades
- Work with customers to understand their requests and prepare engineering project proposals
- Respond to the technical specifications requests
- Work with customers to develop specifications, detailed requirements and budgets.
- Attend technical national and international conferences
- Assist with exhibitions and conference; prepare and deliver technical papers
- Work at continuing professional education related to the technical products and services of the company as well as personal development
- Job will require international travel.

PQT offers an attractive employment contract, benefits, ongoing technical training, and the opportunity to learn from recognized international experts.
