ACM Transactions on Intelligent Systems and Technology

Subject Area:	Computer Science: Artificial Intelligence
	Mathematics: Theoretical Computer Science
Publisher:	Association for Computing Machinery (ACM)
ISSN:	2157-6904
E-ISSN:	2157-6912
Scopus Coverage Years:	from 2010 to Present

Journal Metrics

Scopus Journal Metrics offer the value of context with their citation measuring tools. The metrics below allow for direct comparison of journals, independent of their subject classification. To learn more, visit: www.journalmetrics.com.

SJR (SCImago Journal Rank) (2014) :	5.452
IPP (Impact per Publication) (2014) :	9.126
SNIP (Source Normalized Impact per Paper) (2014) :	10.606

Compare with other journals

SJR, IPP, and SNIP

SJR = SCImago Journal Rank is weighted by the prestige of a journal. Subject field, quality and reputation of the journal have a direct effect on the value of a citation. SJR also normalizes for differences in citation behavior between subject fields.

IPP = Impact per Publication (IPP) measures the ratio of citations per article published in the journal.

SNIP = Source Normalized Impact per Paper measures contextual citation impact by weighting citations based on the total number of citations in a subject field.

Open Access Journals

Journals covered by Scopus are indicated as Open Access if the journal is listed in the Directory of Open Access Journals (DOAJ) and/or the Directory of Open Access Scholarly Resources (ROAD).

For questions regarding Open Access Journals please see the Content info page.

For questions regarding the Open Access Journal search options please see the Scopus OA help file.
