Materials — Open Access Materials Science Journal

Materials (ISSN 1996-1944; CODEN: MATEG9) is an open access journal of materials science and engineering published monthly online by MDPI.

- Open Access** - free for readers, with publishing fees paid by authors or their institutions.
- High visibility:** indexed by the Science Citation Index Expanded (Web of Science), Compendex (EI) and other databases. For more information on the journal's Impact Factor, see here.
- Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 22 days after submission; acceptance to publication is undertaken in 7 days (median values for papers published in this journal in 2016).

Impact Factor: 2.728 (2015); 5-Year Impact Factor: 3.300 (2015)

Photocatalytic Degradation of Organic Dye under UV-A Irradiation Using TiO₂-Vetiver Multifunctional Nano Particles

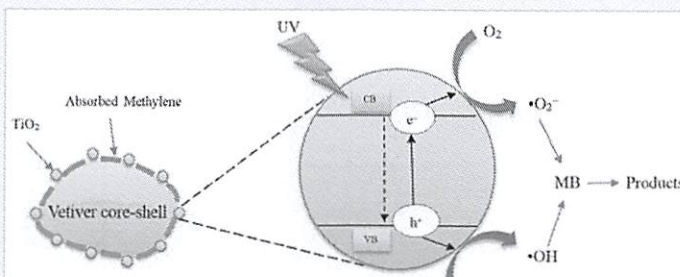

by Le Thi Song Thao, Trinh Trung Tri Dang, Wilawan Khanitchaidecha, Duangdao Channel and Auppatham Nakaruk
Materials 2017, 10(2), 122; doi:10.3390/ma10020122 (registering DOI) - 30 January 2017

Abstract

The properties and photocatalytic performance of anatase nanoparticles of pure TiO₂ and a core-shell structure of TiO₂ on calcined vetiver grass leaves have been compared. Samples were fabricated by sol-gel and heating at 450 °C for 5h. The comparison was based on
